

The name of the game will be called "The Wheel of chance".

The game will be operated by members of Post 59. It is estimated that there will be at least four members present to manage and run the game.

This game will be played during the running of this year's Hillsboro Balloon Fest and Fair which is scheduled for July 7, 8, 9 and 10 of 2011. Hours of operation for this game will be: Thursday, July 7, 5PM to 11 PM; Friday, July 8, 5PM to 11 PM; Saturday, July 9, 1PM to 11PM and Sunday, July 10, 1 PM to 6 PM.

Location of game will be a Grimes Field, a town property, located off of Preston Street, Hillsboro, NH.

The Game: A wheel containing ninety-nine (99) numbers will be located at rear of the game area and visible to all players. The wheel will be attached to a vertical stand. On the perimeter of the game area will be three tables in a U shape which will hold thirty-three spaces. On the front will be fifteen (15) spaces and on each side (two sides) will be nine (9) spaces each a total of thirty-three spaces. Each space will contain three numbers in the vertical. The numbers on each space will be random and total numbers will not exceed ninety-nine (99) which is the total numbers on the wheel. Wheel will be spun. Once the wheel stops the individual who is spinning the wheel will declare the winning number. The space with the winning number will be identified by the game assistants, one on each of the three sides. If a wager(s) have been placed on the space with the winning number then those playing that space will be paid in the following manner:

Top number, nearest the wheel, will pay even. Middle number will pay 2 to 1. Bottom number, closest to player, will pay 3 to 1. Very simply each player will have a chance to win on any of the three numbers within that space if the winning number happens to appear for that particular space.

The wager: Players will be able to play for at little as twenty-five cents but not to exceed two dollars per space.

Note: If this is acceptable to the rules and/or laws surrounding games of chance by the State we do need to know if there is a limit per spin. May a player, for example, play as many spaces as he or she wishes or is there a dollar limit by which any one player may place on the playing table?

House Rules: Below are house rules that the Executive Board of Post 59 have agreed to. It is further understood that there may be other house rules which are

required by the state of NH and/or your commission which will need to be posted along with approved house rules set by the Post. I would be most appreciative if you would share with us those rules so we can incorporate them when we prepare the notices of house rules to be posted at the game area.

1. The operator of the wheel will be the supervisor of the game. He or she will have final say in the interpretation of rules, similar to bingo callers.
2. Prizes will be paid after each wheel spin. All funds will be removed from playing tables and new wagers will be placed following the removal of all monies.
3. All players must be eighteen years of age to play.

Note: If the age is different we will post the correct age. In bingo, of which the Post has been playing since 1996, the age of admittance is 18. Also, like with liquor sales, if your department has pre-printed signs addressing legal age to play we would be most happy to post these in the gaming area.

4. Here and numbered hereafter will be additional house rules as set forth by your commission.

The net proceeds of this event will be to the benefit of Post 59's programs and a capitol reserve fund for the installation of a fire sprinkler system within the Post facility.

I am also seeking some assistance in the amount of paper work needed to apply. I have printed out your various forms. I would like to believe that because we currently operate bingo and lucky 7's at Post 59, that some information is not needed, such as non-profit status etc. If this game is an acceptable game for us to play would you be kind enough to review our file and share with us the actual forms you would need to issue the license to operate the game.

The Executive Board has also asked me if we might be able to sell Lucky 7 pull tabs during this event as well. They would be sold at the same area in which the above game is played.
